Went Well	Votes
---------- yhrr ----------	347
Good work on proactively asking questions and getting them clarified in advance. Continue doing the same to minimize the blockers	8
Great collaboration amongst the team. Good questions to ensure components are built on best practices and will enhance user experience and authoring experience.	5
Ravi and Rahul have been very helpful with spikes and POCs to determine best options to take	4
Great job Trevor with decision log, very helpful.	3
Very good review of tickets, knowing when it's worth to take one forward or hold back.	2
Ravi, appreciate your attention to code standards and quality of design. Simple, OOB accessible and modular. + Column control - +Tejas review	1
Tejas work on the POCs was very helpful	1
Rahul and Saif -- Their reviews consistently provided valuable suggestions to improve code quality and enforce best practices, helping raise the overall standard of the codebase.	1
Good Job by the QA team to ensure the UserStories meet the ACs.	1
Tuliskan perasaan bapak ibu saat ini?	0
Team cordination and process for development, PRs , review was easier and smoother	0
Happy to see we are building everything as per figma now	0
Great work by Nagasai and Snehal. Their keen observation skill helps a lot in delivering quality output.	0
Great job by Mani on implementing the Rovo agent for test case creation. Thanks to this initiative, the QA team is now able to generate most test cases efficiently with comprehensive scenario coverage.	0
I baked a delicious chocolate cake with my family yesterday.	0

Didn't Go Well	**Votes**
---------- Manual testing on each env is tidious ---------- XFN design reviews should be enabled for INTL market before implementing the new features starting Q2 FY27 ---------- The initial code quality / merge didn't went well . 200+ files missed during the initial merge	89
Handling design changes in Figma	2
Meetings and grooming sessions can be more efficient if we stick to the points we’re supposed to discuss. I’ve noticed that we often get derailed. If something concerns a specific person, it should be discussed one-on-one if it affects everyone, it should be brought to the table	2

Sprint planning can be improved as we could see some difficulties in spill over process.	0
The weather was too rainy today, so I couldn't go for a walk.	0

Action Items	**Votes**
Sprint 2	4
Grooming tickets to be shared in advance so that team can review it during India time and be ready with questions.	1
Experienced cloud pipeline failure with average running time 5-6 hours	1
Trevor add a sprint breakdown into the decision log so we can better manage as we move forward	1
We should start Component documentation with LLD and HLD	1
Moving ahead we need to have stories will less story points to ensure stories complete within the sprint.	0
Need to determine what is a proper velocity (sprint points) that should be taken for each sprint. Any ticket points that will go beyond the agreed upon sprint points should be added to next sprint.	0
VML coordination we may need to continue to develop this to avoid it as a blocker - would like a high level process defined	0
Continued work on design handoff process	0
Comments affecting requirements or ACs need to be updated in the story itself.	0
Good to have additional date fields for Dev and QA team add due dates	0
I want to start learning to play the guitar and practice sports next week.	0
